YELLOW FEVER.

The Scourge Increasing to an Alarming Extent.

MEMPHIS, August 24.—The fever is largely on the increase and matters look quite panicky again this morning, the applications from the poor to be sent out of the city being great. For the twenty-four hours ending at noon 105 new cases have been reported and fifteen deaths. Of the new cases about seventy-five have been reported this morning. The scarcity of nurses is beginning to be felt.

To-day the number of new cases of yellow fever reported is nearly double that of any previous day, the total for the twenty-four hours ending at 6 p. m. being 106, and the deaths for the same time being fifteen. The large increase becoming known at noon created something of a panic among those who had determined to brave it out, and many wavered in their resolution and left the city by rail this evening. The Howards have had more than they could attend to and to-day experienced some difficulty in supplying nurses for the sick. The increase of the fever to-day has brought more laborers into the field, and the Odd Fellows, Masons and Knights of Honor orders and workmen's relief boards find their time pretty well occupied in caring for the sick and destitute.

NASHVILLE, Tenn., August 23.—The citizens' committee to-day collected \$2030, besides a large quantity of provisions, in aid of the cities afflicted with the yellow fever.

NEW ORLEANS, August 24.—New cases to-day, 183; deaths, 42. Hugh Irvine, chief operator of the Western Union telegraph office in this city, died this morning of yellow fever, after six days' illness.

NEW YORK, August 24.—The Chamber of Commerce relief committee up to noon to-day had received \$1900 for the yellow fever sufferers.

CHICAGO, August 24.—Subscriptions aggregating \$2500 were made on the Board of Trade this morning for the benefit of the yellow fever cities of the South.

CINCINNATI, August 24.—A bale of cotton donated by the steamer James D. Parker was sold on Change to-day for \$600. This will be sent to aid the sufferers at Memphis.

HOLLY SPRINGS, Miss., August 24.—There are six cases of yellow fever here, all refugees. The Jackson Board of Health has designated Holly Springs as one of the infected points and quarantined its mail matter.

ST. LOUIS, August 24.—The fund for the fever sufferers in the South has increased to about \$5000.

MEMPHIS, August 24.—A special to the Appeal from Grenada says: The appeals for nurses to-day, which could not be answered, were heartrending. Whole families are down without a soul to aid them. The fifty brave nurses on duty have more than an average of two patients apiece. Abundant supplies of provisions from neighboring towns come in daily, and funds are now being received quite liberally. Good nurses are now the greatest need.

Negotiations with Indian Tribes.

UMATILLA, (Or.), August 24.—General Howard and Governor Chadwick, with their respective staff officers, passed through Umatilla to-day en route to the Umatilla Agency. A general council of military and civil authorities and the Umatilla Agency and the Columbia River Indians is to be held there on the 26th instant, to effect if possible, a settlement of existing difficulties between citizens and Indians. Those Indians guilty of crime during the Bannock outbreak will probably be identified and properly dealt with. Early next week Captain Whipple of the First Cavalry will go alone into the country of Chief Moses and Smohalla, to make a report of the situation there, which is constantly reported as becoming more critical.

Gilmore's Trouble in Europe.

NEW YORK, August 24.—A gentleman connected with Gilmore's band just returned from Europe says the tour was a musical success, but a financial failure. The persons entrusted with the business management are incompetent. In England and Scotland their concerts were profitable. The troubles began on the Continent. When the band reached Paris their funds were exhausted. Gilmore sought the assistance of the American Consul and Mr. Mackay. The former secured a hail and the latter lent Gilmore \$3000, which enabled the band to pay expenses and leave Paris and visit Belgium and Germany. The band was cheated by the agent and the tour proved disastrous. It is understood that Mr. Mackay pays their expenses home.

The yellow fever continues to spread in the South.

CONDENSED TELEGRAMS.

The shoemakers' strike in Chicago is ended, the trouble between the employers and employees having been amicably settled.

Great preparations are making for the National Soldiers Reunion at Marietta, Ohio, beginning September 3, and lasting three days.

Gold closed in New York yesterday at 109 1/4 fractional silver coin, 1/2 @ 1 per cent. discount; silver bars, 115 in greenbacks and 114 1/2 in gold per ounce.

It is authoritatively stated that all differences between the Union and Central Pacific Railroads and the Pacific Mail Steamship Company about freight and passenger contracts have been settled, and that matters will continue to work harmoniously, as heretofore.

Fight Between Revenue Officers and Illicit Distillers.

NASHVILLE, Tenn., August 24.—Revenue officers report an engagement with an armed band of illicit distillers in Overton County, headed by Campbell Morgan at 6 p. m. yesterday. The revenue officers were under fire forty five minutes, and Phillips, Pippins and Smith were wounded. Commissioner Raum has given Collector Woodcock authority to send enough men to capture the entire band, and he is now getting up a posse for that purpose.

Ayres and Strain arrived here this evening from nine miles north of Cookeville, in Overton County, where the fight of yesterday occurred between illicit distillers and twelve revenue officers, and they say they were about to put up for the night when they were unexpectedly fired into by twenty or thirty men. A regular skirmish ensued, in which Phillips was shot through the left side (believed to be mortally wounded), Pippins under the right eye and Smith in the left arm. One illicit distiller was seen to fall. They were sent here by Davis for reinforcements. When they left the firing was still going on and news of the result is awaited. Eighteen armed men went from here to-night to reinforce Special Deputy Collector Davis. Two illicit distilleries have just been broken up in Lawrence and Overton Counties.

Political Notes.

CHICAGO, August 24.—A Journal Washington special says: Among the indorsers of Colonel Mosby for the position of Attorney General were E. W. Stoughton, Simon Cameron and several Union officers who had been prisoners during the war. The General Stoughton whom Mosby captured in bed at Fairfax Court-house, Virginia, was a nephew of E. W. Stoughton, and the Stoughton family have always been very friendly toward Mosby on account of his courteous treatment of his prisoner. The President for satisfactory reasons concluded to make no change in Assistant Attorney Generals, of whom there are four—two in the Department of Justice, one assigned to services in the Postoffice Department and one to the Department of the Interior. It was then determined to offer Colonel Mosby an appointment under the Department of State, as has been done.

Notice to Miners.

WASHOE COUNTY, NEVADA, August 24, 1878.

We, the undersigned, request all miners and prospectors engaged in mining in the Peavine District, to assemble in Peavine proper, on the 30th inst., at 3 p. m., to discuss the advisability of the so-called new Reno Mining District, with Mr. Loomis as its Recorder, of which we saw notice in the Reno Record. Chas. M. Rolker, Geo. Harding, Dave Harlan, Richard Lawrence, Joe Harman, E. B. Harlan, Chas. L. Walker, Isaac Mason, J. Phillips, Tim O Day, Pat Kearns, R. Williams, J. E. Kimball, M. Rafferty, A. Nedow, B. Henesey, M. Lee, N. A. Merrill, R. Auscheitz, D. L. Hunt, F. W. Merrill, A. D. Griffin, H. Phillips, Chas. H. Taylor, J. T. Poland, W. E. Lemmon, A. D. Black, M. Hearon, P. M. Norton, S. K. Barber and Jas. Melville.

Sutro Tunnel.

During last week the header of the Sutro tunnel has been advanced seventy-six feet, making its total length 20,397 feet. This week the temperature of the rock in the drill hole is but 108 degrees. This shows, according to the Enterprise, that the header is passing into the west country formation and beyond the heating influence of the lime and other minerals contained in the material forming the Comstock lode.

A fight occurred on Friday in Overton County, Tennessee, between twelve revenue officers and a band of illicit distillers numbering twenty or thirty, during which three of the officers were wounded, one mortally. One illicit distiller was seen to fall.

V. & T. R. R. EXTENSION.

The *Enterprise* says that at last the long-talked-of railroad south into Esmeralda is to be constructed. Mr. Yerington, Superintendent of the Virginia & Truckee road, informed the editor on Saturday last that the work would be commenced immediately, and pushed forward with all possible dispatch. The intention is to commence at the Mound house and run thence to Dayton, thence via Sutro to Fort Churchill, where it will cross the Carson, and thence by natural valleys and passess to Walker lake. Steamers will be placed on the lake for the transportation of passengers and freight, and from some point this side of the lake (or more probably from the foot of the lake) a branch road will run to the Nine-Mile house, which is at the foot of the grade going to Aurora. To prevent transshipments, and because there is not on the route any grade greater than twelve feet to the mile, the road will be broad gauge, which will enable it to connect directly with the Virginia & Truckee and Central Pacific railroads.

The extension will be fifty-nine miles in length and will attract much attention to the unexplored regions of southern Nevada. When we get \$2,000,000 we shall build a railroad from Reno northward through Beckworth pass and down to tide water. We shall then finish the V. & T. on to a connection with the Texas Pacific some where in southern California. This line, with its mining, agricultural and lumbering interests, we should regard as the best paying railroad in the world. The *Enterprise* also says that there is a large quantity of tillable land yet unclaimed, which will be only two hours ride from Virginia city, when the new road is completed.

CONNOR AND WREN.

There has been a compromise in Esmeralda between Congressman Wren and General Connor, which will do away with the strife which threatened the Republican primaries. The basis upon which the agreement stands gives Wren ten of Esmeralda's fifteen delegates, and Connor five. There will be no fight at the primaries, and harmony will be secured to the party on the Base range. The fight began with the absurd idea of geography which seems, more than anything else, to divide the candidates and make them anxious for unfair advantages. The party must be united in a canvass for United States Senator and Congressman. This, before all things else. If individuals stand in the way they must postpone their aspirations, or forego them entirely. We would like to see every Republican candidate have an equal and impartial hearing before the Convention, but if this cannot be without antagonizing men and factions which should work together, somebody must step down. The compromise between Wren and Connor is apparently acceptable to the gentlemen. It should then be gratifying to the party of which they should both be zealous and united members. Settle your differences now, gentlemen, and with a view to Republican success. If your rival is stronger than yourself, yield. If you can not yield gracefully, fight it out right now, then shake hands and go on together. You can not all succeed; you must not make the party success contingent upon your own victory. We understand that with the compromise thus made, Connor is more sanguine of victory in the Convention.

Somebody in or about Carson has been violating the game law, and Hub Parker, like a true sportsman, has resolved to veto such practices. He is after the pot hunters, and they will do well to reform. This is the manner of Mr. Parker's pursuit: "I hereby offer a reward of fifty (\$50) dollars for information that will lead to the arrest and conviction of the persons who sent the District Judge of Storey county, Nevada, the one dozen and a half of quail spoken of in the *Virginia Daily Stage* of August 21, 1878.

EDITORIAL NOTES.

The colored voters of Nevada are up near the bowsprit of the political vessel, each one with a hammer and nails intent upon nailing "old glory" to the mast. George H. Rogers, President of the Nevada State Colored Union League, has just selected a large-sized rhetorical spike, and drives it into the unwashed coffin with a sledge of the following calibre: "I now deem it my duty to call upon all Vice-Presidents of the league to assist me in the diffusion of knowledge among those who need our advice. We indeed comprehend that 'tis better to stand firm to old and tried friends than to seek those whom we can not trust. We believe that wrongs will be righted, and with the past as a criterion for a more brilliant future, we believe our State Convention will heal all wounds, and create a new impetus in the hearts of all true lovers of liberty and freedom to rally! No obstacle should deter the negro from rallying around the grand old party, and agree to the principles set forth in our Constitution."

The *Eureka Sentinel* is catching votes for the Democracy, and uses this sort of bait: "A writer in *Science Gossip* observes that grazing animals eat a great quantity of dirt. The penchant of Bradley Democrats for that sort of diet is what entitles them to be turned out to grass." The next day the *Sentinel* patted itself on the back with a half column editorial wherein it was set forth that the only paper which did not make personal flings, and offer insult to political opponents lived upon the base range. There is some question about the favor with which the *Sentinel's* anti-Bradley zeal will be received.

The San Francisco correspondent of the *Virginia Chronicle* is evidently a man of fashion, and accustomed to breathe the refined air of the Nob Hill world. With the true lady-da language of the thorough swell he relates a conversation he recently had over the lunch table with a young lady of the very highest respectability and ton. While the lovely and fashionable creature was about making a remark this favored correspondent delicately describes her as "flinging a rosy lip over a fat shrimp." You can always tell the real gentleman somehow.

The *Eureka Leader* says that the compromise in Esmeralda is rough on the boys who engineer the voters. The Democrats had been promising aid at the polls, and in anticipation of a Wren-Connor war every unemployed politician and striker anticipated steady and lucrative employment. One strange part of the matter is that the *Sentinel* seemed to know more about an adjustment in the Republican ranks than did the *Leader*.

The Cherry Creek *Independent* believes that the Democrats are "whistling to keep up their courage," when they promise to elect a Democrat in place of Jones. That paper points to Jones' ability as an organizer, and also notes the universal admiration which is felt for him among voters in this State. The *Lyon County Times*, however, differs with the *Independent*, and we shall still consider the question in doubt.

It is evident that the proprietors of the leading New York and London newspapers are not aware that a phenomenal journalist is buried in Silver City. He gleams with a phosphorescent glare through the columns of the *Lyon County Times*. This mean and underhanded fling is occasioned by the fact that we were guilty of a grammatical error last week, and Picotte found it out!

The editor of the *Lyon County Times* says that Lake Tahoe has no social standing. There is, it seems to us, considerable presumption in a man born in Canada and reared in the Sutro tunnel passing judgment on the social standing of anybody or anything. Riding behind a mule on a car in the dark in a hole in the ground is not the way one usually becomes acquainted with the usages of the most brilliant society.

D. O. Mills, the well-known capitalist and money maker, is on the Comstock. Mr. Mills distinguished himself last year by espousing the cause of the celestial at Washington. He is visiting this region probably for the purpose of looking into the pro-

jected extension of the V. & T. R. R. to Bodie.

General Connor claims forty votes in the west, and with the Nye delegation and five votes from Eureka, he will go in with about fifty votes, which is more than any other gubernatorial aspirant is likely to muster on the first ballot. If the Crawford plan prevails in Storey General Connor is liable to disappointment about those forty votes.

The "thoughtometer" is the latest. This is nothing else than an instrument for the measurement of thought. The Foot-light is tremulous over the probable perfection of this instrument at an early day, and the editor, in writing two columns about the invention, delicately insinuates that he has no use for the instrument.

SPRINGFIELD, Ohio, August 24.—Hon. Charles Foster is addressing a fine audience at Black's Opera House to-night. He opens the campaign in this district. He takes ground for the policy of resumption, and defends the motive of the President in his Southern policy, while admitting its doubtful character as a partisan measure.

REPUBLICAN STATE CONVENTION.

Chinese Cruelty.

Reno needs a society for the prevention of cruelty to animals. The manner in which they treat the animals they use for food is positively shocking. Two heathen this afternoon carried for several blocks a young hog in a way that made white people along their path shudder. The legs of the animal were tied together with a thin rope, and the poor beast carried along on the shoulders of the coolies at the regulation trot. The hog suffered to the extent that it could not find breath to squeal, but hung with its mouth wide open, and nearly insensible. The rope cut into the skin. A GAZETTE reporter made the wretches lay the porker down, and would have arrested both, but was informed by a county official that "there was no money in it," as the Chinamen would not pay their fines, and their conviction would be merely an expense to the county. Not being regularly engaged in the chivalric occupation of rescuing hogs in distress, the reporter forewent his intention, and the brutal Chinaman re-shouldered their panting burden and jogged off with him to merciful slaughter.

Suicide of Cy Hawley.

Oason Appeal of Sunday: News reached here yesterday from Hank Martin's wood camp that Cy Hawley, an old stage driver widely known as an experienced reinsman, ended a prolonged spree yesterday morning by shooting himself through the bowels with a pistol. He got up, took a cup of coffee and then taking out his pistol, cocked it and presented it at the head of one of the bystanders. In another moment, laughing at the fear betrayed by this person, and avowing that he meant to kill himself good, discharged a shot into his abdomen, then, cocking it again put the weapon to his head and snapped it. The charge was not exploded and no wound was inflicted. If, as is stated, the shot aimed at the bowels, penetrated that very vital part, Cy's chances of recovery are very slim.

P. S.—Poor Cy died yesterday about noon. An inquest is to be held to-day, we believe.

Worried by the Women.

A gentleman from Virginia tells a GAZETTE reporter that Mark Strouse, since obtaining a divorce, is bothered considerably by the receipt of letters from ladies who are not only willing but anxious to marry him. One widow has informed him by mail that she thinks herself just fitted to be his wife. She is no longer young, she says, and has no wealth, but she knows she would make him happy as "he would be proud of the way she appears at sociables." The newly-made and fascinating bachelor is so pestered by these attentions that, it is rumored, he is about to put an end to them by marrying his servant girl.

TUCKING.

What is it?—An Axious Inquirer and an Irate Editor.

A bothered looking citizen came into the GAZETTE office yesterday afternoon and respectfully asked to be let look at the dictionary. He sat down and rather anxiously thumbed Webster for a while.

"What word are you looking for?" asked a reporter, seeing that the stranger had failed to strike the trail.

"Well," said the man in a burst of confidence, "you see I've only been married a short time, and my wife's gone up to Truckee on a visit, and she's written to me to look in the bottom of her trunk for a lot of 'tucking' and send it to her. Now, what I want to know is what in blazes is 'tucking' It ain't in the dictionary."

"Tucking?" said the reporter briskly, "why, tucking is the stuff the girls make by poking a sort of short-turned fish-hook through a hole and catching the thread and drawing it back again." Then the editor spoke up contemptuously, and said that a man who was so ignorant as that ought to hold his tongue. What the reporter had described was crocheting. Everybody ought to know what tucking was. The ladies in making it used a little contrivance shaped like a mussel, with thread wound up inside of it. Tucking could be purchased, he believed, for ten or fifteen cents a yard, and why intelligent girls should waste a whole day in making what they could get for a short bit was more than he could understand. In answer to a question from the admiring reporter, the editor said he had been told that tucking was used in trimming the undergarments of the fair sex, but why things should be ornamented with a fellow would get licked for trying to look at—or perhaps shot—was beyond his comprehension.

The married stranger said the editor was mistaken. That the article he mentioned was not tucking—it was tatting. This he knew for a fact. The editor observed that when a man came to the GAZETTE office for information, the editor, when he gave it, didn't like to be told that he lied. If the stranger wanted to avoid trouble he had better get out and go to the devil. As the editor had grown red in the face and his eyes were blazing, the married stranger coughed feebly and slunk down stairs.

In the meantime, what is 'tucking'?

ARRESTED FOR MURDER.

"Old Chips" Nabbed at Wadsworth—Story of a Columbus Crime.

Last Thursday Deputy Sheriff Lewis of Wadsworth arrested a man on a charge of murder. The man spent that night in the county jail and was next morning taken to Columbus, where the crime was committed. This was all that could be learned from the officers. To-day a GAZETTE reporter met a gentleman who threw some light upon the matter. The person arrested is known as "Old Chips," a permanent, whisky-drinking ne'er-do-well, well known in Esmeralda county. On the morning of the 23d of April last, a Frenchman who kept a restaurant in Columbus was murdered. He had made a raise in stocks, and in his exultation exhibited his money. Every body in Columbus knew of his luck, and a doctor named Murat facetiously remarked in the hearing of a number of persons, that he would soon have some of the coin, as "Frenchy" didn't seem to be in very good health. At half-past 2 o'clock on the morning mentioned an alarm of fire was given. Dr. Murat gave the alarm, and it was the Frenchman's place that was on fire. The flames were extinguished and the unlucky restaurateur was found with his throat cut from one ear to the other, and all his money gone. The circumstance of Dr. Murat giving the first notice of the fire, joined to the fact that he had blood upon his clothing, led the officers to arrest him upon suspicion of having committed the horrid crime. The doctor, however, satisfactorily accounted for his gory condition, and also in other ways showed his innocence, so he was discharged from custody. The blankets, some letters and a few other articles belonging to "Old Chips" were found in the place, and the police looked for him. He had disappeared. They tracked him. He seemed to have spent money freely along his devious route. He was nabbed at Wadsworth and taken back. Whether there is other than this circumstantial evidence against the accused the reporter was not able to ascertain.

A Nice Place for a Fire.

During the recent excitement caused by the threat to drive the Chinamen out of Washoe, there was one incident which was suppressed that it might not add to the fear of respectable people for the safety of their property. Allen C. Bragg's new house was in course of construction and the walls and ceiling had just been plastered. Mr. Bragg one morning found the waste plaster on the floor had been scraped together until it lay several inches deep in the center of the floor and on this foundation a fire of shingles and chips had been started. The plaster kept the fire from the floor and it burned out without doing any damage. It is quite probable that it was the work of children. It is not impossible, however, that a chilly tramp took this risky way of toasting his toes.

THE WORKINGMEN.

An Editorial Scalp Lifted—Some Pleasant Speeches.

The Workingmen had a very lively meeting on Saturday night. The attention of several speakers was devoted almost wholly to the scalping of the editor of an evening paper which has been enthusiastically "furnist" the toilers. Mr. Leeper was of the opinion that the journalist under torture was in all inward points a Chinaman, while all that was needed to make him a Mongolian outwardly was a tail. Mrs. Smith, the female Workingman and Kearneyite, viciously attacked the scribe, laid him out cold and then mutilated the corpse after the most barbarous fashion. In her opinion the brain of the editor, if put into a peanut shell, would find room to roll around and rattle. This wild and attractive female advised everybody to subscribe for the *Irish World*, a New York weekly journal which she considered a true friend to the workmen. The *Irish World* is an extremely entertaining periodical. Every week there is a full page illustration of Ireland pursuing John Bull, who never fails to be fleeing in terror. It was the organ of that pure patriot, O'Donovan Rossa, (a gentle man known in his youth in the town of Rossa as Jerry O'Donovan) in his efforts to raise the "skirmishing fund." The money thus raised—and there is a good deal of it—will, after the O'Donovan deducts his trifling commission, be used to blow up British towns and fortresses, with secretly applied dynamite. It will thus be seen that the *Irish World* is a paper after Kearney's own heart, and Mrs. S. shows wisdom in calling it a friend of the workingman. The vivandiere of the incendiary army announced that she would canvas for this peaceful family journal.

No business was transacted. Several powerful speeches, just dripping with the *can de cologne* of oratory, were made, cheers were given in a general way and the meeting adjourned.

AT THE TRACK.

Some Good Horses in Training—Contemplated Improvements.

Several improvements are contemplated at the race track, among which the clearing the entrance of rocks, making new gates, and the general repair of the buildings and grounds, have already been commenced. There are now at the track eighteen horses in active training. Norcross has six trotters, among which are A. K. Lamb's Washoe, Wm. Mooney's fine mare, Henry B., and Winters' gray gelding, said to be very promising. Quince Anderson has two trotters and four runners. Among these are Muggins, and M. C. Lake's running stable, consisting of Cousin Vic, a Monday colt, a Riffeman three-year-old. Great things are predicted of these two youngsters. Jim Dyke has in charge the veteran trotter, who is well known as Tom Morgan or "The Blacksmith's Dream," and a pacing horse with a high sounding name. Joe French has three trotters, among which Pest, a young Nelson colt, is "threatened" with a great deal of speed. A. K. Lamb has gone to Sierra valley, after Overland, the well known running horse. The track is in fine condition and well fitted for every kind of exercise which is desirable in training horses. The entrance from the railroad to the grounds has been cleared of rocks. The work of preparing for the coming fair may be said to be fairly under way. With improvements to the track and the building of the pavilion during the present year, the State fair is without doubt a permanent institution for Reno. A large increase in the number of horses and stock may be looked for at an early day.

Accident to Tom Norcross.

Tom Norcross, lessee of the fair grounds, was thrown out of a trotting wagon at the track last Wednesday, and hurt quite badly. He landed on his head, spraining his neck and jarring his whole body. The wheels passed over his head, cutting him in several places. He has been confined to bed for several days, but is now getting along all right.

The Pavilion.

The carpenters at work upon the Pavilion have raised the skeleton of the first story and to-day have been engaged in laying the floor. The building, it is now positively promised, will be ready for the grand opening ball on October 5th. The Ball Committee will in a few days set about making preparations for the event. All Reno will be expected to be prepared.

—Jack Foulkes, the Mayor of Verdi, came in unostentatiously this morning. Mr. F. in view of the fact that delegates to the convention will be elected eighteen days before they can get to work, wants them taken over to the Court House, and sworn that they won't speak to anyone, all same jury-men. Good idea.

—John Cassin, of Nevada county, California, beautifies our boulevards; also Messrs. W. S. Hobart and S. H. Marlette.

JOTTINGS.

—L. S. Burchard has gone for a little jaunt to Pyramid lake.
—The public school resumed business again this morning. So did St. Mary's.

—H. M. Yerington and R. F. Pixley of Carson, went below on Saturday night.

—Yesterday and to-day have been very warm. Comfortable weather in Reno has become a mere tradition.

—A Reno squaw without a dog would be as strange a sight as a Comstocker who didn't know John Mackey and Jim Fair intimately.

—Professor James and wife, (ex-Strouse) are reported to have left Lake Tahoe, and are now enjoying themselves in San Francisco.

—The sale of standing collars and gorgeous neckties grows very large as the time for the opening of the Seminary on the hill draws near. Agonizing attention is likewise being given to the tardy mustache.

—The Good Templars' picnic at Bowers' Mansion on Saturday was a success. About 600 persons attended. Although there was nothing more fiery than lemonade to drink, there was lots of fun and no rows.

—"Canty" is still out in the country. The officers know where he is, of course. The Chinaman whom he shot and the Chinawoman who was laid out by a blow from his pistol are both getting better.

The publicity which the Piute young men and maidens give their love-making is rather embarrassing to the whites. Jim and Mary hug with a grave and earnest industry altogether out of place upon the curb of a civilized town.

—That versatile and godly man, Parson Kelly, who is as much at home in telling a good story as he is in dedicating a new sanctuary, is in town. He had a blessed season on the Comstock last week and describes things political on the lode as being mixed.

SIMMOND'S NABOB WHISKY.

A GREAT REMEDY.

SIMMOND'S

NABOB

WHISKY.

—FOR—

Indigestion, Dyspepsia and Nerv-
ousness.

The Purest and Best

—FOR ALL—

Medicinal and Family Purposes.

HAS BEEN SOLD IN ALL THE EASTERN STATES AND GIVEN UNIVERSAL
satisfaction. It is highly recommended by the Faculty for all cases of Nervousness,
Weakness, Debility, Dyspepsia, Indigestion, etc.

It is now introduced to the public of the Pacific Slope, endorsed by certificates of the eminent
DR. J. HAYES, State Assayer of Massachusetts, and DR. H. C. LOUDERBACK of St.
Louis, Mo., both gentlemen prominent in their profession, and which is a guaranty to all
buyers of its purity and quality.

I can show thousands of letters from private persons, from all parts of the Union and Can-
ada, to testify to its merits and the benefit it has afforded, as a family remedy and tonic.
Dyspepsia is called the national disease of this country, and many reasons why have been
given. It is frequently said that people work too much, eat too fast, sleep too little, tax the
powers of nerve and brain too incessantly, drink too much ice water, eat too much hot bread,
smoke too much tobacco, give way to too much excitement, and consequently play them-
selves out in the shortest possible time. "A short life and a merry one" seems to be the
sentiment that chiefly influences a large number of persons, but for all that no person feels at
ease when suffering in health. Now, however, much or little truth should be attached to the
opinion of physicians who charge the great prevalence of dyspepsia and nervousness to any
of the causes mentioned, it cannot be denied that there are some applications received by
druggists throughout the country for medicines to relieve and cure stomach and nervous pains
and disorders, and all other maladies that afflict frail humanity. As might be expected under
the circumstances, a large number of specifics to successfully counteract these diseases have
been introduced to the attention of the public, but nearly all of them have failed to do any
good. Whenever, therefore, any alleged new remedial agent is spoken of, very little confi-
dence is felt in it by reason of numerous past disappointments, so that people who are
chronic sufferers from dyspepsia, indigestion, physical weakness, or nervousness almost dis-
paired of being cured. They, however, take too despondent a view of the matter, for those
who have used the celebrated NABOB WHISKY, which can be had from all respectable
druggists and grocers, know by experience that it is a sure remedy for all the maladies re-
ferred to, and that its tonic properties are of the most strengthening character. Many persons
who found it impossible to properly digest a single meal, and whose physique had been sadly
attenuated, have derived immediate benefit from the NABOB WHISKY, and in a short time,
by its regular use, regained all their health and strength. It can be taken with impunity, as
no drugs are incorporated with it, and its healthy action on the human system is at once felt.
The effect which it produces on the organs of the stomach is such as to create a vigorous ap-
petite and render digestion easy, no matter what the habits of the sufferer may be, and it at
the same time steadies the nerves and stimulates the brain. There are no fictitious claims for
the great remedial agent, so that all persons who are troubled with dyspepsia or nervousness
would be false to themselves if they failed to test its curative qualities. Its sale is rapidly on
the increase, and the better it is known the more it is used.

CAUTION--None genuine unless labeled with my signature over the cork.

DR. L. J. CZAPKAY'S

Private Medical Institute.

Established in 1854.

For the Permanent Cure of all Special
and Chronic Diseases, as also all
Female Complaints and
Diseases of the Ner-
vous System.

THE IMMENSE DESTRUCTION OF
human life annually from secret and
chronic diseases, caused this old and reliable
institution to be established, first in Philadel-
phia, Penn., in 1850, and afterwards in San
Francisco, Cal., in 1854, as a private dispen-
sary, in order to afford the afflicted the best
medical and surgical treatment, for the above
and all other affections and complaints. Con-
sultation at the Institute, or by letter, FREE.

To the Afflicted:

Dr. L. J. Czapkey would most respectfully
inform the public of the Pacific coast that, at
the earnest solicitation of his numerous
friends, and hundreds of those unfortunately
suffering from disease, he has reopened his
MEDICAL AND SURGICAL INSTITUTE
and resumed the practice of his profession.
The Doctor would remind all those who are in
need of medical aid, that since relinquishing
his very extensive and successful practice in
San Francisco, he has visited the principal
cities in Europe, inspecting diligently the ex-
perience of the most learned in the profession,
and all other affections and complaints. All
communications strictly confidential. Medi-
cines sent by express. Address,
L. J. CZAPKAY, M. D.,

FELLOWS'
Compound Syrup!

HYPOPHOSPHITES.

THIS DISCOVERY

Is the result of a series of Scientific Experi-
ments based upon the theory that "for the
successful cure of Wasting Diseases, the ner-
vous system must be made vigorous and
healthy."

One of the first symptoms of disease affect-
ing either the Liver, Lungs, Heart, Stomach,
or Genital Organs, is a loss of nervous power.
This is followed by muscular relaxation, weak-
ness, and emaciation of all the organs which
depend upon them for health or involuntary
muscular action, the weaker suffering first.

The inventor, acting upon this idea, that the
muscles and nerves depend upon each other
for efficient strength and action, and that
they must be treated directly in order to
speedily and permanently cure diseases of the
organs which they control, became convinced,
after months of experiment, that no other
preparation produced such potent and direct
effects upon the nervous system as his

Compound Syrup of Hypophosphites
and except in cases of actual organic loss, that
it would restore patients suffering from these
maladies.

Amongst the diseases overcome by the use
of this remedy are the following:--

Chronic Constipation,
Chronic Dyspepsia,
Asthma,
Chronic Bronchitis,
Consumption,
Chronic Diarrhea,
Chronic Laryngitis,
Melancholy,
Nervous Debility.

Debility, resulting from Typhoid and other
low fevers, Diphtheritic Prostration, Hysteria,
Hypochondria, Nervous Excitability, Maras-
mus or Wasting of the Muscles, Aphonia or
Loss of Voice, Singingness of the Liver, In-
terrupted and Feeble Action of the Heart,
SUFFOCATING FEELINGS caused by mucous ob-
struction of the Lungs and Air Passages lead-
ing thereto, and Debility from various causes.
Indigestion and habitual Constiveness
almost always arise from weakness of the
muscles and nerves of the stomach and bowels.
In such cases, Fellows' Compound Syrup of
Hypophosphites has proved itself of the great-
est service by inducing healthy peristaltic
action of the intestines. The evacuations
soon become copious and healthy, without
producing the effect of purgative medicine.

Weakness of the Joints and Muscles, In-
firmity of the Blood, and EWARD WAST-
INGS may be cured by attention to the regu-
larly described doses, and by due regard to the
habits of life.

FELLOWS'

Compound Syrup of Hypophosphites

The power of arresting diseases displayed
by this preparation is honorably acknowledged
by the medical faculty in every section where
it has been introduced, and the large sale is
the best guarantee of the estimation in which
it is held by the public.

This Syrup will cure FULMINANT CONSUMP-
TION in the first and second stages, will give
great relief and prolong life in the third. It
will cure ASTHMA, BRONCHITIS, LARYNGITIS
and COUGH. It will cure all diseases origi-
nating from want of MUSCULAR ACTION and
NERVOUS FORCE.
